Helping With Donations

Ideas for fundraising + volunteering center app

Core purpose:

A non-profit website (passion project) with fundraising opportunities and access to volunteering opportunities for teens and adults of all ages.

Back end Mechanics:

- There will be hyper links to websites dedicated to each fundraising opportunity, but no Gofundmes

- Organizations will be able to send out notifications to User's inboxes when volunteering positions are available and if notifications are turned on

- Users can donate real money to organizations via online payment

- App asks for User location to look for organizations near User's area

- App collects cookies and uses it to make an algorithm of donation centers to users Preferences

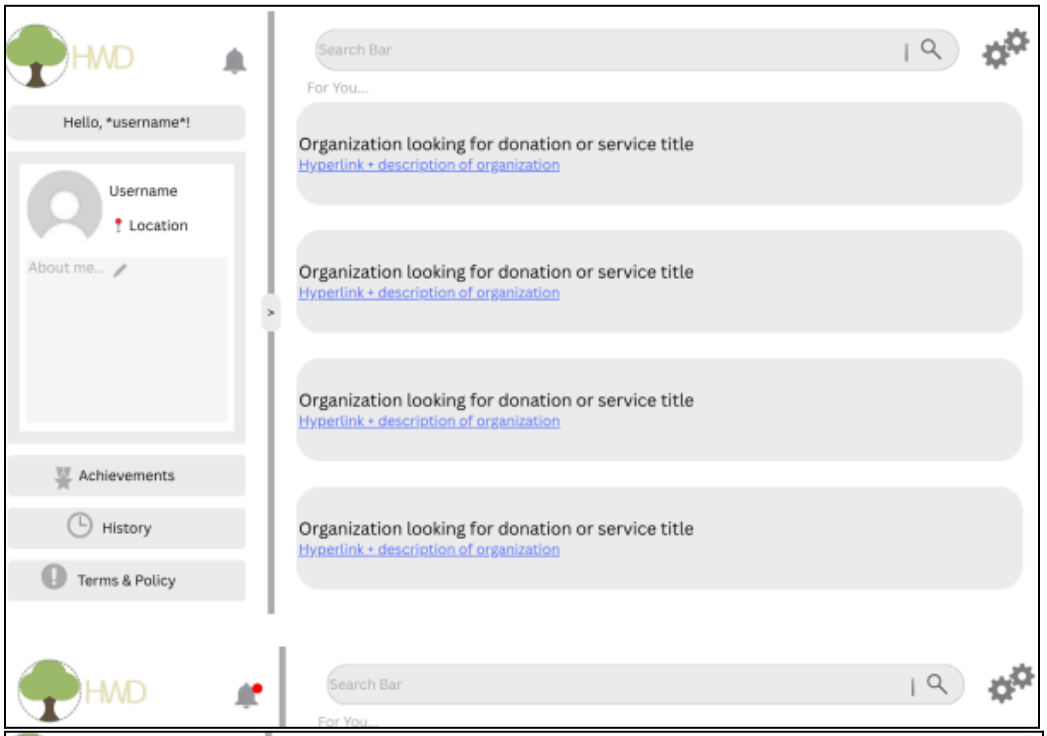

- App has profile customization

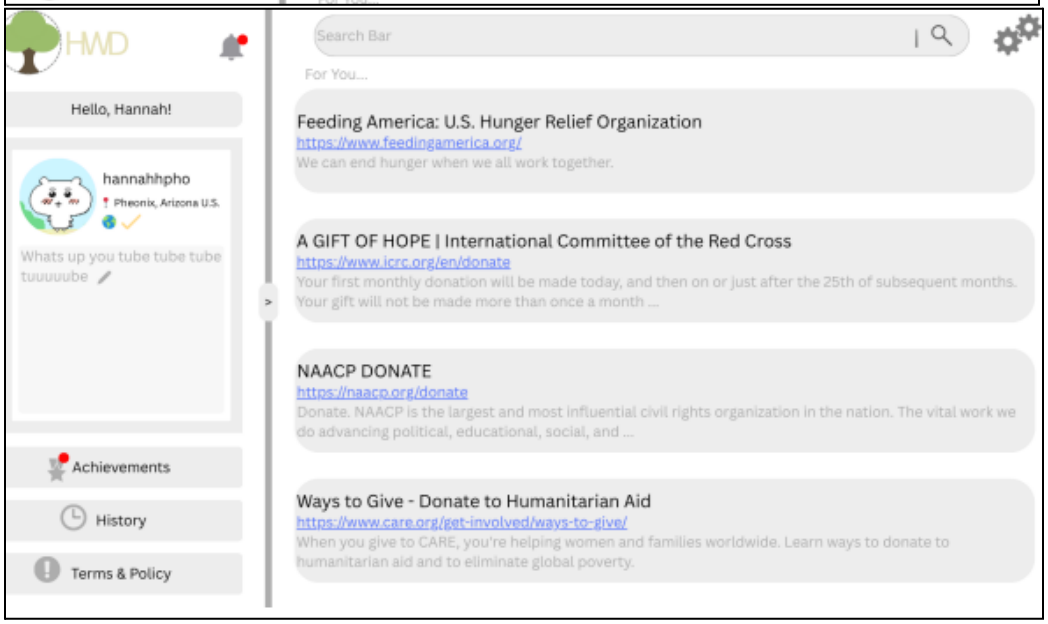

- Organizations llist their contact and location information as well as terms of services up front

Home UI:

Small search bar, Settings, Notifications icon, Achievements + History + Terms Policy icons
Profile side bar, Notifications, For You organizations

Summary: The website home page is the starting page launched after you sign in. It has a side panel on the left of your profile with three shortcuts to your notifications, achievements, history, and the terms & policy. Because it's simply the home page it includes "For You" organizations that you may visit often or that match with your interests in algorithms. When you open the search bar, it directs you to the search page.

Search UI + Suggestions page:

Big search bar, Logo, Settings button, Notifications icon,Achievements + History + Terms Policy icons, Catalog check boxes, keywords highlighted in purple

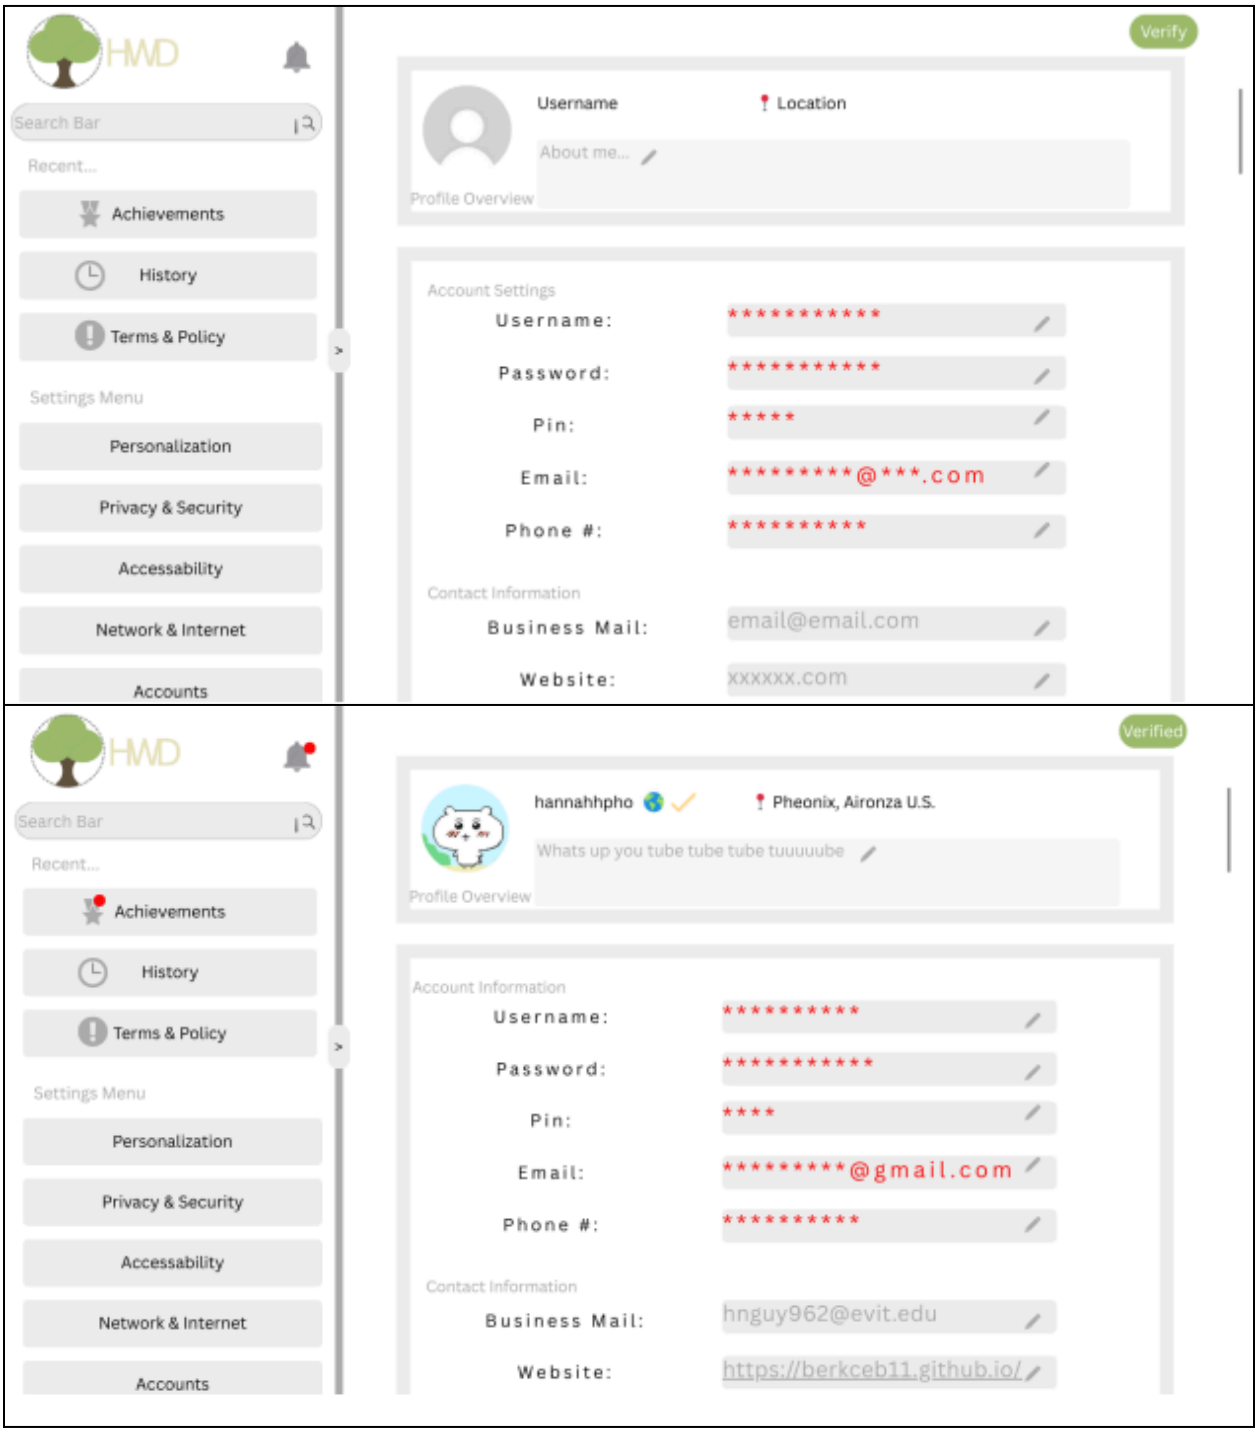

Summary: The website search page displays many recommendations from your “For You” selection when you just open the page without entering a search. When keywords are entered, then organizations that match will be displayed. On the left side are the icons showing shortcuts to your notifications, achievements, history, and the terms & policy. There’s a side panel on the right of the catalog categories in order to further define a search and organizations that meet their preferences.

Account Profile/Settings UI:

Small Search Bar, Logo, Settings, Profile Overview, Account settings, Contact Information, Verified or not label, Verified profile badge

Summary: The website account/settings page has 2 main web structures. The profile overview block and the account information and contact information block where you can make edits to your information. On the left is a panel of settings and shortcuts. The panel also includes a search bar for quicker searches of the setting menu. Users' contact information can change to be public or private in settings.

Sign In:

Sign-in, Sign-up, Terms & Policy, Logo

Summary: Website page to sign in or sign up, as we as to direct to the terms & policy page.
