

# Helping With Donations (Hannah World Domination)

## Ideas for fundraising + volunteering center app

### Core purpose:

A non-profit website (passion project) with fundraising opportunities and access to volunteering opportunities for teens and adults of all ages. (Maybe like LinkedIn?)

### How:

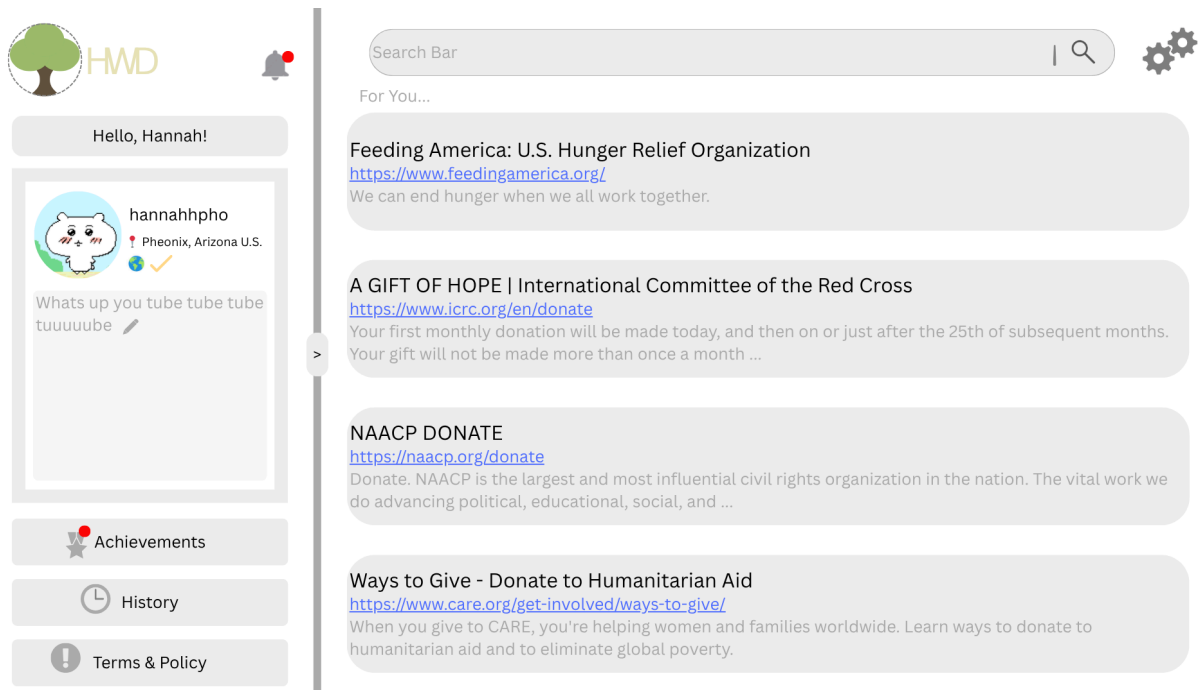

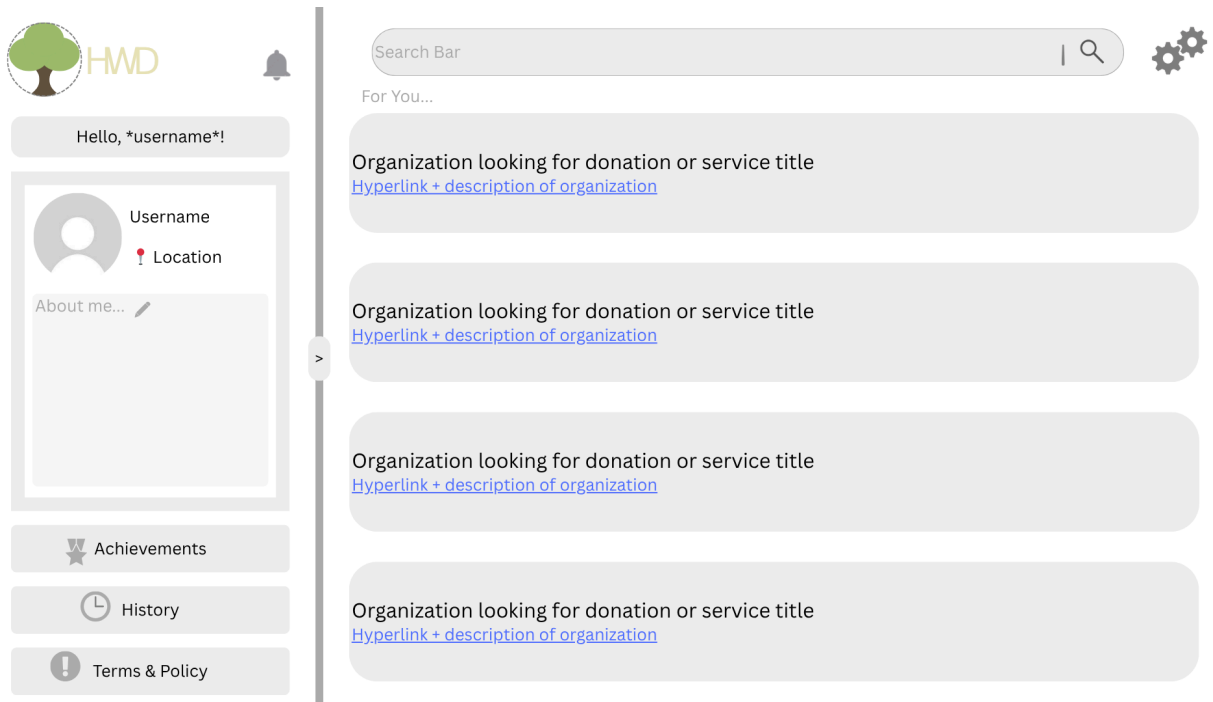

- There will be hyper links to websites dedicated to each fundraising opportunity, but no gofundmes
- Organizations will be able to send out notifications to User's inboxes if volunteering positions are available
- Users can donate real money to organizations via online payment
- App asks for User location to look for organizations near User's area
- App collects cookies and uses it to make an algorithm of donation centers to user's preferences
- App has profile customization
- Organizations HAVE to list their contact and location information as well as terms of services up front
- Nothing AI promoted
- For each page finalized, copy and paste into the document

# Home UI:

Small search bar, Settings, Notifications icon, Achievements + History + Terms Policy icons  
Profile side bar, Notifications, For You organizations

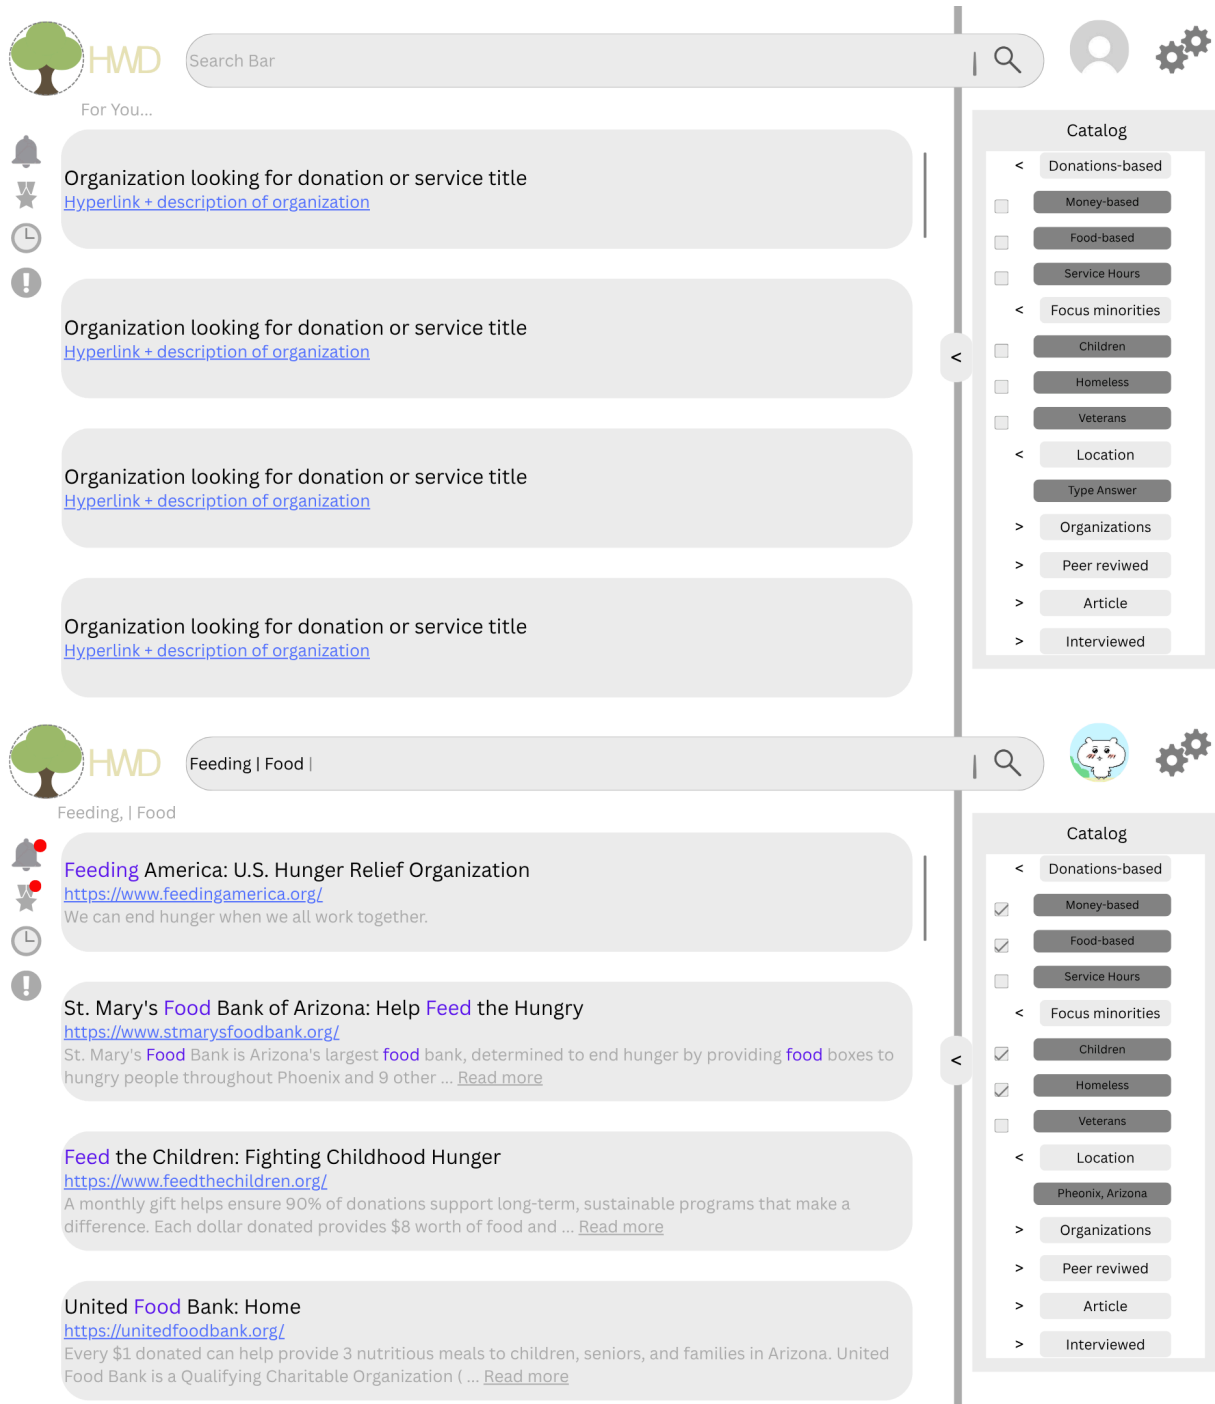

Summary: The website home page is the starting page launched after you sign in. It has a side panel on the left of your profile with three shortcuts to your notifications, achievements, history, and the terms & policy. Because it's simply the home page it includes "For You" organizations that you may visit often or that match with your interests in algorithms. When you open the search bar, it directs you to the search page.

# Search UI + Suggestions page:

Big search bar, Logo, Settings button, Notifications icon, Achievements + History + Terms Policy icons, Catalog check boxes, keywords highlighted in purple

Summary: The website search page displays many recommendations from your “For You” selection when you just open the page without entering a search. When keywords are entered, then organizations that match will be displayed. On the left side are the icons showing shortcuts to your notifications, achievements, history, and the terms & policy. There’s a side panel on the right of the catalog categories in order to further define a search and organizations that meet preferences.

# Account Profile/Settings UI:

Small Search Bar, Logo, Settings, Profile Overview, Account settings, Contact Information, Verified or not label, Verified profile badge

Summary: The website account/settings page has 2 main web structures. The profile overview block and the account information and contact information block where you can make edits to your information. On the left is a panel of settings and shortcuts. The panel also includes a search bar for quicker searches of the setting menu. Users' contact information can change to be public or private in settings.

The image displays two versions of a web interface for an account profile and settings page. Both versions share a common left sidebar and a main content area.

**Left Sidebar (Common to both):**

- Logo: A green tree icon next to the text "HWD".
- Search Bar: A rounded rectangle with a magnifying glass icon.
- Recent...: A section header.
- Buttons: "Achievements" (star icon), "History" (clock icon), "Terms & Policy" (exclamation mark icon).
- Settings Menu: A vertical list of buttons: "Personalization", "Privacy & Security", "Accessibility", "Network & Internet", "Accounts".

**Top Mockup (Unverified User):**

- Profile Overview:** Includes a generic grey avatar, "Username", "Location" (with a location pin icon), and "About me..." (with an edit icon). A green "Verify" badge is in the top right.
- Account Settings:** Fields for "Username", "Password", "Pin", "Email", and "Phone #", each with a masked input field and an edit icon.
- Contact Information:** Fields for "Business Mail" (containing "email@email.com") and "Website" (containing "xxxxxx.com"), each with an edit icon.

**Bottom Mockup (Verified User):**

- Profile Overview:** Includes a cat avatar, the username "hannahpho" with a verified badge, a location pin icon, and "Pheonix, Aironza U.S.". The bio is "Whats up you tube tube tube tuuuuube". A green "Verified" badge is in the top right.
- Account Information:** Fields for "Username", "Password", "Pin", "Email", and "Phone #", each with a masked input field and an edit icon.
- Contact Information:** Fields for "Business Mail" (containing "hnguy962@evit.edu") and "Website" (containing "https://berkceb11.github.io/"), each with an edit icon.

# Sign In:

Sign-in, Sign-up, Terms & Policy, Logo

Summary: Website page to sign in or sign up, as we as to direct to the terms & policy page.

HWD (Helping With Donations) is a non-profit website that offers fundraising and access to volunteering opportunities to donators all around the world.
